

# A Digital Passport to Sustainability: The Journey towards Responsible Citizenship

Simon Faulkner, Rosemarie Florida, Steve Shema Ndayambaje, Ruban Faisal, Muhammad Hamzah & Huda Joad

In a collaboration between students doing a experiential learning and Ecocampus, we aim to move towards a fully digitalized system, setting a new standard in tracking and incentivizing our community's participation at events and nurturing them towards being sustainably responsible citizens of our campus.

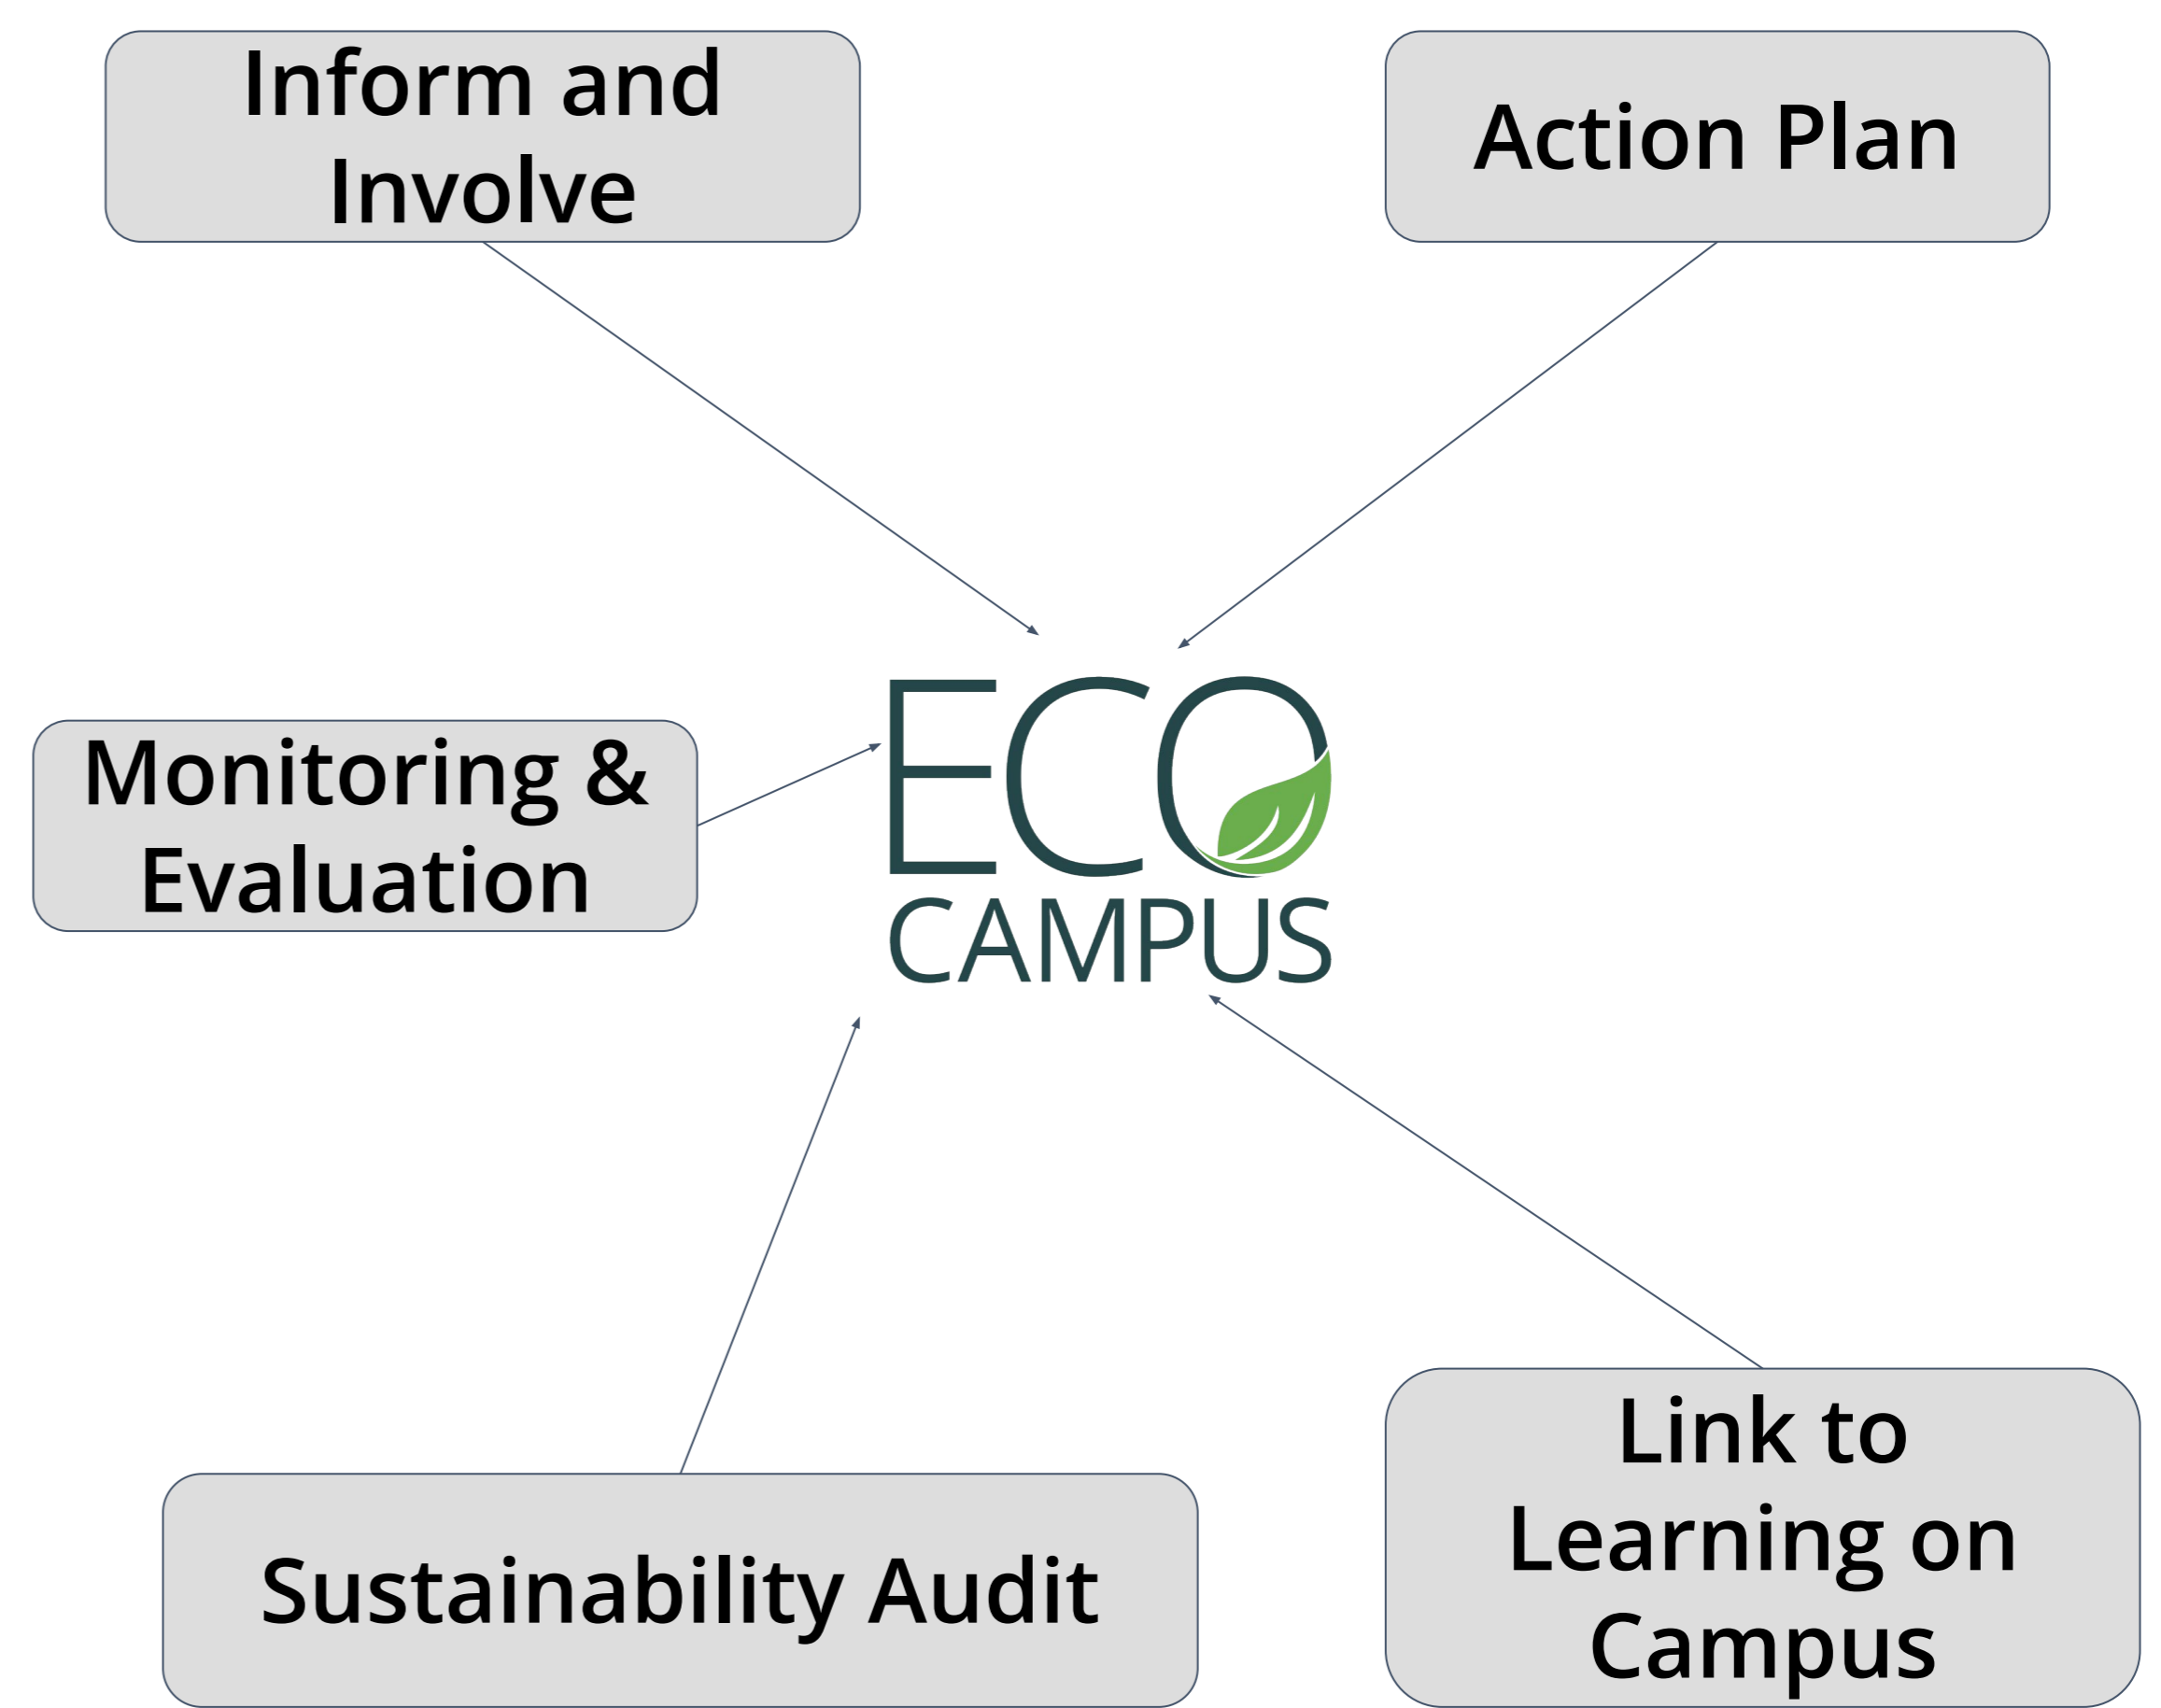

## The Voyage: Nurturing Growth and Engagement

## Why the CMU-Q Digital Passport?

- **A First in Higher Education:** It's not just a tool, it's a movement towards digital transformation in student engagement.
- **Efficient and Eco-Friendly:** The digital passport embodies efficiency, eliminating the need for physical materials and the waste associated with them.
- **Incentivized Impact:** Through rewards and recognition, the digital passport motivates students to engage in sustainable practices and activities.

## Integration with FEE's Assessment Strategy

## Technical Aspects of the Project
